Targeted Training
In today’s competitive business environment, a highly skilled and productive workforce is a company’s greatest asset.

*Customized contractual education* can assist your organization by providing precision-crafted education, training programs and consulting services. Your employees will benefit from committed, value-added delivery excellence, a supportive and productive learning environment, and state-of-the-art facilities. Together we will identify the most appropriate training solution to benefit your employees and your organization and make the most of their training experience.

All of our training is highly customizable. You will receive a training program targeted to the specific needs of your staff aligned with the requirements of your organization, business or industry.

Specific Training Designed for Your Organization
Dedicated training for your organization is a cost-effective, efficient, and convenient way to train employees. By customizing the training to meet your needs, you can ensure that everyone in your organization shares a common vision about specific technologies and business processes. Everything from content to location is at your discretion. Topics can be conducted at your facility, our facility, or another location of your choice. We deliver training in a format that best meets the needs of your organization, whether it’s consecutive days, one day a week, or evenings.

World-wide Online Delivery
Whether your employees need computer training or business management skills, the *customized contractual education* program also offers a complete online learning experience. Online learning offers a range of multi-modal training options, including self-paced e-learning, instructor facilitated and collaborative online learning, and virtual e-learning labs.

- e-Learning courseware is available in topic-based libraries
- Interactive and integrated topics include assessments, quizzes, exercises and other resources
- Business courses from the most recognized providers
- Up-to-date training paths for the hottest IT certifications, from the most recognized companies

Best of all, we’ll make your job easier while making your training more effective.

Needs Assessment & Skills Assessment
We can provide tools to evaluate your organization’s current and future needs and establish training efforts to meet those requirements. Our staff will work with you to determine the candidates within your company who should attend training and which skills will be most beneficial for each individual.

Quality Control
After the completion of the training, we’ll provide you with evaluations to gauge the effectiveness of the topic and the instructor. The summary report is compiled from evaluations completed by participants. A strong record of performance, a long-trusted and established brand of quality, superior content, university faculty and industry-experienced instructors, state-of-the-art facility and the most comprehensive services available result in excellent value for your training dollar.

What Others Are Saying

Customized contractual education coordinated and delivered 7,975 hours of professional training to state agencies in Project Management and Information Technology (IT) Security. Your efforts should be commended in the planning, overall coordination, and deployment of the necessary resources to produce such successful and well-received training.

Janet W. Smith
Vice Chair
Information Resource Management Commission
Raleigh, NC

The Advanced MS Excel training delivered to our group was excellent and concise; the instructor was highly skilled, effective and pleasant with the delivery of the training.

Analyst
State of NC
Raleigh, NC

The delivery of the MS Project Class was very insightful, and beneficial; the class was the total package. Your instructor provided very clear and timely information!

Dave Walters
President
New Atlantic Contracting
Winston-Salem, NC

Customized contractual education is offered by the Office of Assessment, Partnership and Program Development which is a unit of the McKimmon Center for Extension and Continuing Education at NC State University.
